GAS SUPPLY WILL BE
ON AT 5 O'CLOCK
TODAY

Twelve employees of the Utah Light and Power company, who left their posts Wednesday evening, returned to work late yesterday and the gas supply of Ogden will be restored at 5 o'clock this afternoon. Company officials and the men who have been employed for some time at the plant met yesterday and the men agreed to return.

Wednesday the workers went out after several conferences had been held in which the men demanded an increase in salary, which was refused by the officials of the company. New men were placed in command at the plant Thursday. Thursday afternoon, however, the gas supply of the city was cut off when the men fled from their posts after a large crowd of railroad men had gathered at the plant. The supply was cut off shortly after 5 o'clock and scores of Ogden families were compelled to invade the eating houses of the city.

Several Ogden business houses were crippled to a great extent yesterday as a result of the closing down of the plant.

Manager Merrill of the Utah Light, stated this morning that the people of Ogden would receive good service from now on.

The men, according to Mr. Merrill, were pleased to return to their positions and the company was glad to have them back on the job. The men were taken back on the old wage scale. On account of the fact that the gas for the past two days has been cut off from the city, Mr. Merrill stated that it would be impossible for the company to serve the people of the city before the dinner hour this evening.

Employees of the gas plant in Ogden who quit their posts Wednesday evening, took absolutely no part in the demonstration at the plant Thursday evening, according to Superintendent A. F. Breuerton of the plant. Mr. Breuerton vouches for the men and stated today that the entire demonstration was by outsiders.
